User Guide

Volume Pedal

Welcome!

Thank you for choosing this volume / expression pedal. You have obtained a state-of-the-art product made by the renowned manufacturer Studiologic by Fatar.

 **Please read the entire user guide thoroughly and keep it for further reference.**

Intended use

This product is designed to operate as volume / expression pedal for electronic musical instruments only.

Unauthorized conversion and/or modification of the device are inadmissible because of safety and approval reasons (CE). Any usage other than described above is not admitted and can damage the product or the connected device and can cause risks such as short circuit, fire, electric shock etc.

Important Safety Instructions

 **Never plug the device to high voltages, such as mains. This may cause risks of severe injury and death.**

 **This device is designed to be operated by foot, not by hand. To avoid risk of bodily injury, keep your hands and fingers away from moving parts (pedal lever).**

 **Electronic devices and accessories must be stored away from children.**

Do not use the device for other purposes than as volume / expression pedal for electronic musical instruments. Plug the device only to sockets on your musical device which are labelled with "Expression", "Pedal", "Foot Controller" or similar.

Water / moisture:

To reduce the risk of fire or electric shock, do not expose the device to water or moisture. If the device is moved from a cold place to a warm room, condensation may occur inside. To avoid damage please allow the device to reach room temperature before using it.

Cleaning / Maintenance

Never use any abrasive detergent, which may damage the surface. We recommend a slightly moist micro-fibre cloth.

Do not open the chassis. There are no user serviceable parts inside.

Warranty

Every Fatar Studiologic product has been carefully manufactured, calibrated and tested. All this enables a warranty. Damages due to incorrect transport, mounting or handling are not covered by this warranty. All this is based on general terms and condition of the local distributor / FATAR Srl, Italy. Compensation of more than the price of the device is excluded.

State of the Art

To ensure maximum quality, all devices of Studiologic by Fatar are always engineered to be state-of-the-art products. Therefore updates, modifications and improvements are made without prior notice. Technical specification and product appearance may vary from this user guide.

Schematics

Connector	Type	Value	Model
	linear continuous controller	0 Ohm 10 KOhm	VP 25
	linear continuous controller	0 Ohm 10 KOhm	VP 27

Compatibility

This product is compatible with most of Studiologic instruments. Please check the full list at:

<http://studiologic-music.com/support/accessories-compatibility/>

Compatibility to other brands can not be assured due to different wiring and hardware standards employed.

Studiologic excludes the liability for damages which derive from using the pedal with devices whose compatibility has not been declared.

Setting up

Plug the connector of your volume / expression pedal to a socket of your MIDI keyboard, sound expander or digital Piano labelled with "Expression", "Pedal", "Foot Controller" or similar.

Please refer to the manual of your MIDI device or digital Piano, if the pedal is supported. In the manual of the MIDI device you will also find remarks, which parameters you can control with the volume / expression pedal.

Operation

While playing your keyboard, gently press the pedal to apply the desired volume or expression value. The pedal remains in the last used position until you change it again.
